I. OPEN DISASTERS/EMERGENCIES: NSTR

II. WEATHER:

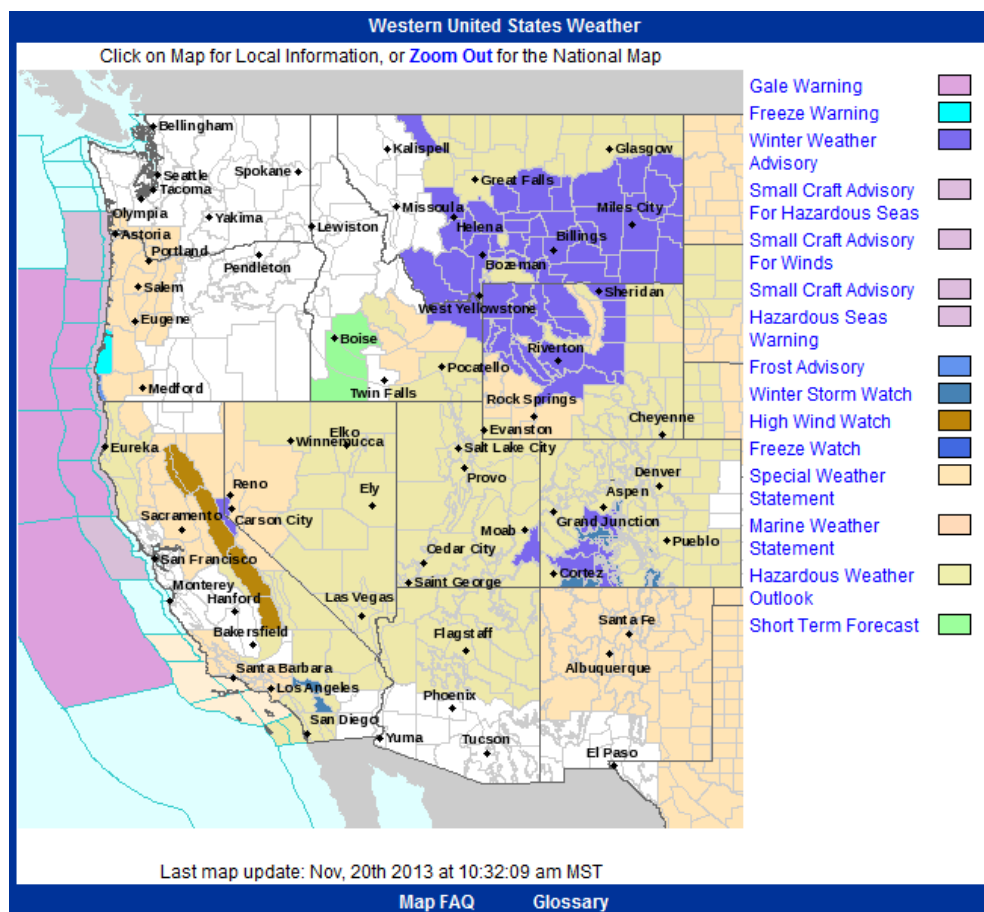

Today's Forecast:
Northern California

Moist pacific storm will continue the threat of precipitation into Thursday. Strong easterly mountain winds and gusty northerly valley winds are expected behind this system Thursday into Saturday. Slightly above normal temperatures with dry weather and lighter wind over the weekend into early next week.

Southern California

A dissipating cold front will produce showers along the central coast through this morning, then an upper level low pressure system will drop south on Thursday, bringing a chance of showers to parts of the area through Friday night. Offshore flow will likely develop on Friday as the upper low drifts south of the area, which will result in warmer and drier conditions for the coastal areas through early next week.

State Weather Map:

III. FIRES:

Overall Fire Risk:

Northern California

Fuels are now near seasonably moist November levels due to the long duration of precipitation. Still another 24 hours of moisture and high humidity to go, which will significantly start affecting the

heavier fuels as well. However, the North to East winds expected later this week will dry things out again, rather quickly in some locations. By early next week some areas might dry out enough for larger scale burn projects to continue again.

Southern California

There will be little or no fire activity across the region through the forecast period.

Preparedness Levels:

National Preparedness Level 1

Northern California

Preparedness Level 1 Multi-Agency Coordination System MACS Mode 2

Southern California

Preparedness Level 2 Multi-Agency Coordination System MACS Mode 2

IV. SIGNIFICANT ACTIVITY:

Northern California:

AeroJet Rocketdyne Incident, Sacramento County (New/Final)

On November 19, 2013 at 1015 hours the California State Warning Center received a report indicating that an industrial explosion occurred at the AeroJet Rocketdyne facility in Rancho Cordova. Fire fighters were called out at 0820 hours and the incident was secured. Two employees were injured, one was taken to a hospital and the other employee was treated at the scene. The extent of their injuries is unknown. The cause of the explosion is under investigation.

Southern California:

Ventura Harbor Spill and Fisheries Closure, Ventura County (New)

On November 18, 2013 at 1339 hours the California State Warning Center received a Hazardous Material Spill Report (13-7114) indicating a fishing vessel collided with another fishing vessel resulting in the release of as much as 300 gallons of red-dye diesel into the water of Ventura Harbor. The damaged vessel has been removed from the water and is currently undergoing repairs. Cleanup operations and investigation into the incident is ongoing. The Oiled Wildlife Care Network has activated two recovery teams to collect oiled animals.

On 11/19/2013, the Office of Spill Prevention and Response (OSPR) advised that the Office of Environmental Health Hazard Assessment (OEHHA) has recommended and declared that the fisheries within the entire harbor be closed. This does not prohibit vessel traffic in and out of the harbor, however if OEHHA determines that re-opening of the fisheries is not safe by 11/20/2013 at 1330 hours, seafood testing for hydrocarbon contamination will commence.

CAL OES MISSIONS:

New Missions: NSTR

Ongoing Missions:

2013-LAW-1563 Plumas County Sheriff's Department (PCSD) requesting a human remains detection dog team to assist in locating the remains of a victim of a cold case homicide. Cal OES LDO coordinated the search dog team response to take place on Monday, 11/18/2013 at 0800 hours. As of 11/19/13, 0800 hours, PCSD advised that they have postponed this search until 11/20/13 at 0800hrs.

2013-Southern-1468 Crystal Cove Slope Repair, Orange County, expedite removal of cracks and overhanging material from the slope face using mechanical and/or hand scaling techniques. Caltrans is coordinating with State Parks and the project should be completed November 27, 2013.

2013-LAW-1566 Santa Cruz County Sheriff's Department requesting a human remains detection dog team to assist with a human remains search. The Law Enforcement Branch of the California Governor's Office of Emergency Services coordinated the search dog team response to take place on Friday, 11/22/2013 at 0800 hours.

Closed Missions: NSTR

EMAC New Mexico

2013-SOC-1568, Cal OES coordinated the deployment of two (2) Santa Barbara County personnel to the State of New Mexico for a 21-day public assistance mission beginning November 17, 2013, in support of the recent flooding.

EMAC Colorado

2013-SOC-1459, Two (2) Public Assistance Crew Leaders from Cal OES Recovery are deployed to Colorado beginning 11/12/13 and ending 12/13/13. Public Assistance personnel are paired with FEMA Crews to provide assistance to communities impacted by the flood and are aware that environmental hazards exist.

2013-SOC-1417, Four (4) Public Assistance staff from Cal OES Recovery are deployed to Colorado beginning 10/28/2013 and ending 12/2/13. Public Assistance personnel are paired with FEMA Crews for communities declared in the disaster.

V. AGENCY/DEPARTMENT REPORTS: NSTR

VI. UPCOMING EVENTS, TRAINING, EXERCISES:

Statewide Medical and Health Exercise November 21, 2013

The purpose of this exercise is to provide participants with an opportunity to evaluate current response concepts, plans, and capabilities related to a surge from a food-borne illness in the local community. This year's 2013 exercise will focus on the coordination of surveillance activities and

health system capabilities anticipated when managing a medical surge among community healthcare partners.
